DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 22-30, drawn to a process of imaging media in an image forming device, classified in class 271, subclass 65.
- II. Claim 31, drawn to a process of configuring an image forming device, classified in class 271, subclass 264.
- III. Claims 1-21, drawn to a media handling system, a media handling apparatus and an image forming apparatus, classified in class 271, subclass 301.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II together, and invention III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the processes as claimed in claims 22-31 can be practiced by any apparatus that is capable of performing the recited operational steps in claims 22-31. In other words, the processes as set forth in claims 22-31 can be practiced by another materially different apparatus.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as providing access to a media path in an image forming device for jam removal. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
